Nidelven camping : Tel+47 90835187 N 63°20'07,8" E10°26'24,6" WGS84

Nidaros Benkskytterklubb was founded the first of April in 2008 with focus on UNL500m shooting and is active at the premises owned by Nidaros Skytterlag. This means that all competitions/building activities have to be approved by the Skytterlag up front. Ten benches with concrete tops, target stand and one electronic target on 500m was built. The first UNL500m competition was held in June the same year and has been a tradition every year since then. Today we are around 70 members. Another tradition is the barbeque on Saturday evening held at the location for the shooting by putting the benches together.

NBSK invites to a barbeque on Saturday evening and will supply charcoal for the grill free of charge. The participants bring their own choice of meat and refreshment for the barbeque.

As a result of demands about where / how to place the targets from the Skytterlag the benches has to be tilted forwards to get down on the target. This is achieved by placing a 1" plate of wood under the rear leg of benches.

Take a look here: <http://www.youtube.com/watch?v=MX5fvIcRfGI>

The ground is soft marsh, so single flag pools will be easy to get placed out.

When it comes to pool height, we will take measurements and update this invitation, as soon as they are available.

If you have any questions, please don't hesitate to get in contact with Frode on
